MAIN INTERNATIONAL CONTRACTS OBTAINED IN 2014

- By geographical area -

August 2015

EUROPE

Armenia

- **SADE** : Yerevan, sanitation : pretreatment of the STEP AERASIA and SCADA - €12m

Belgium

- **Antwerpse Bouwwerken (EIFFAGE)** : *Les Jardins d'Orphée* in Anderlecht, construction of 132 apartments for Orphée SA - €16.8m
- **Eiffage Development (EIFFAGE)** : *Greenwood*, property development of 77 apartments for the first step in the Val d'Or district of Woluwe - €55m
- **SODRAEP (SADE)** : Mons, sanitation : draining Ø400-Ø1600 (5,640 lm), SWDE conduit (4,100 lm), BO1+BO2 (14,000 m³), drain inlets (94 u) - €6.822m
- **SPIE Belgium (SPIE)** : Courtrai Hospital, HVAC works - €20.4m
- **SPIE Belgium (SPIE)** : Brussels, Toison d'or shopping center, HVAC and sanitary works - €6.3m

- **SPIE Belgium (SPIE)** : Tihange, maintenance works, piping and electricity on behalf of Electrabel - €6.2m
- **SPIE Belgium (SPIE)** : Brussels, HVAC works for the European Commission - €4.2m
- **SPIE Belgium (SPIE)** : Antwerpen, concert hall, refurbishment and HVAC works - €4.1m
- **Valens-Duchêne (EIFFAGE)** : *Rive Gauche* project in Charleroi, a 110,000 sq.m operation with 35,000 sq.m. mall center, hotel, 50 apartments, offices, 940 underground car park and public spaces for Saint-Laurent Promotion SA - €49m

Bulgaria

- **SADE** : Bankia, drinking water supply and sanitation : AEP pipes (11,584 lm), AEP connections (560 u), sewage pipes (37,150 lm), manholes (760 u), sewage connections (1,274 u) - €14.85m

Czech Republic

- **ARKO (VINCI CONSTRUCTION)** : renovation of pumping station on the river Želivka - €4.8m
- **BOUYGUES CONSTRUCTION** : construction of two buildings for Prague university. The project is being carried out from two existing buildings, one of which requires a process of demolition-reconstruction, and the other requiring renovation - €15.94m
- **EUROVIA** : modernisation of a section of railway linking Veselí nad Lužnicí and Soběslav (in the south of the country). The construction site, which involves a 6.5 km section between Veselí and Soběslav, will in particular include the strengthening of safety measures. The current level crossings will be removed or replaced by multi-level junctions. The construction site also includes the modernisation of signals and communication installations, command dispatching mechanisms and overhead contact lines. This project is financially supported by the European Union - €54.6m
- **SMP CZ (VINCI CONSTRUCTION)** : modernization of the locks of Brandys and Velky Osek - €4.5m

Germany

- **EUROVIA** : since August 2014 and until early 2017, a consortium prominently featuring the Eurovia Bottrop division is widening motorway A46 between the Holz and Wanlo interchanges to a dual 3-lane configuration. The contract calls for road rehabilitation and the construction of engineering structures and drainage networks. The project requires about 140,000 m³ of earthworks and the use of 70,000 tonnes of asphalt - €14.5m
- **EUROVIA** : since January 2015, Eurovia Bottrop, in consortium with partners, has been rehabilitating a 7-km segment of motorway A3 between the Hilden interchange and the Mettmann exit (north of the interchange). In addition to roadwork, the project encompasses several engineering structures and a water drainage network. Most of the work is being conducted under uninterrupted traffic conditions in efforts to minimize disturbances on this high traffic volume segment. The project is set to be completed in late 2016 - €13.3m
- **NAT AG (EIFFAGE)** : electrical installations for BMW AG - €2.8m
- **SPIE GmbH (SPIE)** : facility management works on SIEMENS sites - €163.9m

- **SPIE GmbH (SPIE)** : München, maintenance contract on behalf of Rückversicherungs-Gesellschaft - €9.9m

- **SPIE GmbH (SPIE)** : reconstruction of an existing office building, technical equipment works and communication on behalf of B. Metzler seel. Sohn & Co. Holding AG - €7.6m
- **SPIE GmbH (SPIE)** : facility management works on an industrial site of 25 buildings on behalf of Sirius Facilities GmbH, Daimler and Dialog Semiconductor - €7.6m
- **SPIE GmbH (SPIE)** : schools in Halstenbek, facility management works on behalf of Hochtief PPP Solutions GmbH - €7.5m
- **SPIE GmbH (SPIE)** : facility management works on behalf of Hochtief Solutions AG/Kitas Leverkusen - €6.4m
- **Wittfeld (EIFFAGE)** : civil works for the city of Wuppertal - €13m
- **Wittfeld (EIFFAGE)** : railway and track construction, civil works in Dortmund - €10.8m

Hungary

- **SADE** : Balatonlelle, sanitation : STEP 14,400 m³/d and 104,000 eq/inhabitant (1 u), new pipe (7,956 lm), gravity and backflow pipes (12,048 lm), connections (224 u) - €6m

Luxembourg

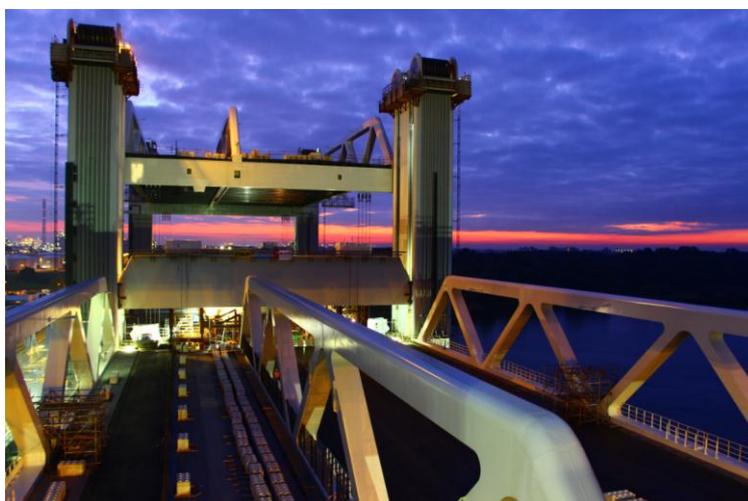

- **Eiffage Development (EIFFAGE)** : Galiléo in Esch-sur-Alzette, real estate development of 128 students flats, 8 community flats, 16 teachers flats, 1 appart hotel with 24 rooms, 2 restaurants, 5 shops and 73 parking spaces - €35m
- **Eiffel Deutschland Stahltechnologie (EIFFAGE)** : renovation and modification works of the Grande-Duchesse Charlotte bridge (Red Bridge) for the city of Luxembourg - \$9.7m

Moldova

- **SADE** : Jora de Jos, AEP : HDPE pipe Ø 160 to 400 (73,709 lm), steel pipe Ø 100 to 700 (12,223 lm), pumping stations (24 u), retention basin (1 u), fish protection structure (1 u) - €14.365m
- **SADE** : Blindesti, AEP : HDPE pipe Ø 160 to 400 (81,056 lm), steel pipe Ø 300 to 900 (22,887 lm), pumping stations (5 u), fish protection structure (3 u) - €16.561m

Netherlands

- **SPIE Nederland (SPIE)** : Botlekbrug, drive lifts brotlek bridge on behalf of Waagner-Biro bridge systems AG - €8.2m

- **SPIE Nederland (SPIE)** : Eindhoven (phase 3), FTTH (Fiber To The Home) on behalf of Reggefiber - €6.6m
- **SPIE Nederland (SPIE)** : Emmeloord, electrical works on behalf of Tennet TSO BV - €6.3m
- **SPIE Nederland (SPIE)** : Harmsenbrug, bridge reinforcement on behalf of Rijkswaterstaat Dienst Zuid Holland - €5.1m
- **SPIE Nederland (SPIE)** : connections for Eurofiber Nederland BV - €4.4m
- **SPIE Nederland (SPIE)** : Eemshaven and Robbenplaat, electrical network extension on behalf of Tennet TSO BV - €4.2m
- **SPIE Nederland (SPIE)** : engineering and execution works on behalf of T- Mobile Netherlands BV - €3.6m

Poland

- **BOUYGUES CONSTRUCTION** : renovation and operation of a 1,000 bedded student residence in Cracow for a 25 year period. The contract provides for renovation of three student residential buildings as well as a complex for associations, accounting for a total surface area of 16,500 m². The contract also provides for reclamation of sports grounds located on the University campus - €18m

- **BOUYGUES CONSTRUCTION** : creation of a residential building in Warsaw. Shaped like a pentagon, it will contain 9 to 13 levels including two in basements earmarked for car parks. The building interior will house a patio reserved for the residents - €13.2m
- **Eiffage Polska Budownictwo (EIFFAGE)** : construction of the OVO hotel in Wroclaw (Hilton) with 184 apartments and 189 rooms (49,000 sq.m on 9 levels) - €29.7m
- **Eiffage Polska Budownictwo (EIFFAGE)** : construction of a 23,500 sq.m. mall center and 6,500 sq.m. commercial center with a 830 parking spaces, called *Fabryka* in Wolomin - €19.5m
- **Eurovia Polska (EUROVIA)**, lead contractor / **Warbud (VINCI CONSTRUCTION)** : design and build of a segment on Route S19 located in Rzeszów (and connecting Świlcza to Kielianówka) for the national roadway and motorway authority in Rzeszów. From now till August 2017, teams will carry out a range of operations, including excavation (800,000 m³), filling (600,000 m³), roadwork (130,000 m²), and build 5 flyovers and 1 overpass 477 m long - €67.5m (Eurovia share : €55m ; VINCI Construction share : €12.5m)
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : design, construction and start-up of a flue gas desulfurization wastewater treatment plant (FGD WWTP) in a power plant located in Rybnik - €10.9m
- **Warbud (VINCI CONSTRUCTION)**, 50% / Hochtief, 50% : construction of the Second World War Museum in Gdansk : building of 7 levels plus 6 underground levels for a total area of approximatively 58,000 m². In addition to the exhibition activity, the Museum will have a

cultural, education and training activity because it also includes rooms for class, conference, cinema and library - €24.3m (VINCI Construction share)

- **Warbud (VINCI CONSTRUCTION)** : construction of the office building “Prime Corporate Center” in Warsaw : building of 23 levels plus 5 underground parking levels for a total area of approximately 36,000 m² - €28.7m
- **Warbud (VINCI CONSTRUCTION)** : construction of a residential and office project "Browar Lubicz" in Krakow : 4 residential buildings and 1 office building - €17.2m

Romania

- **Viarom (EUROVIA)**, 95% / Beta Cops & Maxidesign : design-build contract for the Braşov bypass in central Romania (Segment II, DN11-DN13) on behalf of CNADNR (a public authority). The contract calls for the design and construction of a 4.9-kilometre roadway section to widen Segment II from 2 to 4 lanes. The contract is part of the Braşov bypass construction project, a major venture divided into 3 separate parts, and has received European funding for up to 85% of costs - €13.7m

Russia

- **SUEZ environnement-Treatment Solutions** : contract to supply ozone generators to the Sidel Vostok bottling company for the Coca-Cola plant ozone treatment phase refurbishment in Moscow

Slovakia

- **Eurovia CS (EUROVIA)** : construction of a 2.9 km-long bypass that will enable an extremely busy road to avoid the villages of Zvole and Vlachov, in the east of the country. The project called for the moving of the bed of a water course, the installation of a drainage network and road signs, and landscaping works. Having completed the roadway, the teams are now working on the ‘finishing touches’ : reinforcement of the verges, construction of noise-abating walls and embankments and creating a 300 m-long retaining wall - €31.5m
- **Eurovia SK (EUROVIA)**, 48% / **SMP CZ (VINCI CONSTRUCTION)**, 12% / Hochtief CZ, 40% : contract to build a new section of the D3 motorway. This new 4.2 km section will link Strážov and Brodno on the outskirts of Žilina, in the northern part of the country. The project includes the construction of 4 engineering structures : a 2.2 km tunnel and three bridges, one of which is a 1.4 km viaduct across the Hričovská dam. The contract also covers a large number of ancillary works. To protect the environment, the project provides for optimum blending into the landscapes through which it runs and re-planting of vegetation, including 60,000 bushes and 13,500 trees, along the edges of the infrastructure - €255m

Slovenia

- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : construction of a waste water treatment plant in Nova Gorica - €21m

Switzerland

- **BOUYGUES CONSTRUCTION** : development and construction of the eco-district Im Lenz, in Lenzburg. This mixed sustainable district will include rental housing units and PPE (Properties Per Floor), an elderly home and 20,000 m² of office space and administrative and shopping areas. All the new buildings will be Minergie certified. Im Lenz will be powered by renewable electricity and heating solutions. It was developed in accordance with the criteria of 2000 watts Society - €67m

- **BOUYGUES CONSTRUCTION** : real estate development and completion of the "Akenbüel" residential project in the Zumikon commune. The building will be Minergie certified and will integrate a wood-fired heating system - €61m
- **BOUYGUES CONSTRUCTION** : completion of the excavation of a 2.6 km long highway twin-tube tunnel. It will allow bypassing the city of Visp and is part of the A9 highway project connecting Lausanne and Brig - €53m
- **BOUYGUES CONSTRUCTION** : development and completion of 2 buildings for 101 rental housing units. This project, called Ostermundigen Sommerain, includes sustainable development characteristics with a heating system by geothermal probes and dual flow ventilation in order to improve energy efficiency of the residential units. Traffic flow and parking of motor vehicles takes place exclusively in the basement. This project takes into account the conservation of biodiversity on the site - €39m
- **BOUYGUES CONSTRUCTION** : development, creation, financing and operation of student residential units on the Hönggerberg site in Zurich. This project presents an environmental and economic sustainability solution - €38m

United Kingdom

- **BOUYGUES CONSTRUCTION** : second phase of the urban renewal plan of Canning Town and Custom Houses which includes the construction of a new city centre for this emerging hub in East London. This phase consists in the development of shops, restaurants, a hotel and residential buildings for around 350 homes - €160m

- **BOUYGUES CONSTRUCTION** : transformation of a car park into 4 residential complexes with a height ranging from 8 to 14 floors. This project named Paddington Exchange is part of the development of central London - €65m
- **BOUYGUES CONSTRUCTION** : maintenance, upkeep and safety contract for the University of West London for a period of 10 years - €50m
- **BOUYGUES CONSTRUCTION** : construction of a school at Neath Port Talbot, in Wales. It will replace four schools and can accommodate 1,400 students. Priority will be given to local recruitment on the construction site - €45m
- **BOUYGUES CONSTRUCTION** : design and construction of offices at 45, Cannon Street, at the heart of the financial hub of London. This project is aiming for a BREEAM certification Excellent rating - €33m
- **BOUYGUES CONSTRUCTION** : construction of a complex for the luxury hotel chain Gansevoort Hotel in the highly coveted area of Shoreditch in East London. It will have 120 rooms, six suites and a rooftop swimming pool - €30m
- **COLAS** : Workbank 2014, high output track renewals - €53.3m

- **COLAS** : North South Wales, governance for railway investment projects (stage 5 to 8) : MAFA contract, refurbishment of railway lines - €21.5m
- **COLAS** : high-output renewal train, track renewal work - €34.2m
- **COLAS** : South West Trains, Porterbrook Network, class 455 fleet of rolling stock overhaul - €21.7m
- **COLAS** : Network Rail, multi-year contract 2014-2019, track renewals - €167m
- **COLAS** : Network Rail, multi-year contract 2014-2019, track equipment renewals - €103m
- **EUROVIA / Jacobs / Breedon Aggregates**, in the BEAR Scotland joint venture : contract to manage and maintain Scotland's North East Trunk Roads Unit (613 miles of trunk roads) on behalf of Transport Scotland. The project started in August 2014 and will run until August 2020 with a possible two-year extension - €180m

- **Eurovia Infrastructure Ltd (EUROVIA)** : first phase of works on the new Kent County Council road resurfacing and reconstruction framework contract. This two-year contract started on 1 July 2014 and could be extended for up to a further two years. The first phase includes a major road reconstruction scheme to be carried out during the summer. With multiple sites and five phases, the project consists primarily of resurfacing and road markings. It also includes minor drainage works and a few specialist team operations such as the installation of high friction surfacing - €10m

- **Eurovia Specialist Treatments -EST- (EUROVIA)** : Eurovia Specialist Treatments (EST) has been awarded a place as one of four contractors to deliver specialist treatments, surface dressing, micro surfacing and Gripfibre® on the South West England Framework which covers 13 Highways Authorities, including Somerset, Wiltshire, Dorset and Devon. The Framework contract commenced in Q4 2014 and will run for four years. The works will be awarded on the basis of mini-tendering competitions demonstrating best value - €2m/€4m per year during 4 years

- **Eurovia UK Contracting (EUROVIA)** : A57 Worksop Road Improvement Scheme works (Lot 1) secured through the first round of the Midlands Highways Alliance frameworks (England) - €11m
- **Ringway Infrastructure Services (EUROVIA)** : renewal of the maintenance of the road infrastructure in the county of Worcestershire and contract to maintain the roads and urban lighting in the town of Milton Keynes (Buckinghamshire). These service contracts cover all aspects of road maintenance : renovation, routine maintenance, network inspection and repairs, asset management, emergency response, winter maintenance, and, for the town of Milton Keynes, urban lighting - €300m approximately (during their initial phase lasting about seven years)
- **Smulders (EIFFAGE)** : design, manufacturing, delivery and installation of 5 substations and associated jackets for offshore wind farms off the British coasts for Dong Energy - €200m
- **SPIE UK (SPIE)** : Merlin data centre, mechanical and electrical (power) on behalf of Cap Gemini - €5.2m

- **SPIE UK (SPIE)** : multi-technical maintenance and extra works in private offices on behalf of Cushman & Wakefield Occupied - €36m
- **SPIE UK (SPIE)** : Forties Alpha oil rig on the North Sea, electrical and instrumentation services on behalf of OGN EnQuest Producer Topsides - €22.9m
- **SPIE UK (SPIE)** : South Lanarkshire schools, multi-technical maintenance and extra works - €19.5m
- **SPIE UK (SPIE)** : Distribution Network Operators (DNO) framework, overhead lines on behalf of SPN Distribution - €13.4m
- **SPIE UK (SPIE)** : Distribution Network Operators (DNO) framework, overhead lines on behalf of ENW Distribution - €8.3m
- **SPIE UK (SPIE)** : mechanical and electrical construction in a commercial building on behalf of Rolls Royce Inchinnan Machine - €7.1m
- **Taylor Woodrow (VINCI Construction UK, VINCI CONSTRUCTION)** : contract to design and construct a depot for the Crossrail train fleet at Old Oak Common, West London. The eight-road facility will be able to accommodate up to 33 trains while routine maintenance is carried out - £142m
- **VINCI Construction Grands Projets (VINCI CONSTRUCTION)**, 50% / Costain, 50% : Shieldhall Tunnel, design-build project aiming to increase the storage capacity of the sewage network of the city of Glasgow : completion of 2 shafts of 15 meters in diameter and 20 meters deep, a cut and cover of 300 meters and a tunnel of 5 kilometers. The inside diameter of the tunnel is 4.70 meters achieved with a slurry shield TBM - €26.3m (VINCI Construction Grands Projets share)

- **VINCI Construction UK (VINCI CONSTRUCTION)** : contract to deliver a cinema-led leisure complex in Bournemouth town center (on the South coast of England), comprising a 10-screen, 2,000-seat Odeon cinema, together with 14 restaurants. The project will run for 18 months - £50m
- **VINCI Construction UK (VINCI CONSTRUCTION)** : construction of a new academic building. The new academic research and teaching building will be located on the Western end of the University's Claverton Down Campus - £20m
- **VINCI Construction UK (VINCI CONSTRUCTION)** : construction of a new medical and dental facility, on a site leased to the US Air Force (RAF Croughton, Northamptonshire). The 422nd US Air Force Medical Squadron will run the three-storey facility which includes treatment rooms, laboratories, offices and meeting rooms. The project is due for completion in April 2015 and will also include the demolition of the old building once the new facility is open - £6.7m
- **VINCI Construction UK (VINCI CONSTRUCTION)** : main construction works to transform Buxton's Crescent into a five-star spa hotel with 79-bedrooms - £37m

- **VINCI Construction UK (VINCI CONSTRUCTION)** : contract to create a student accommodation in Walmgate (York) on the site of the York Press offices. The building will provide 648 bedrooms as well as common spaces and a car park. Launched in March 2014, the works also include landscaping work and the refurbishment of an existing unit. The handover is scheduled for August 2015 - £32.5m (€38.8m)
- **VINCI Construction UK (VINCI CONSTRUCTION)** : contract to build a headquarters for Formula E, the FIA's new global electrical racing series at Donington Park. The headquarters will provide facilities for each of the ten Formula E teams, together with offices, stores and workshops for Formula E's own operational staff. The 44,000 sq ft facilities will meet the "Very Good" BREEAM sustainable construction standards - £7m

AFRICA

Algeria

- **Eiffage Energie (EIFFAGE)** : construction with Sonelgaz of the Ain Oussera electricity substation. This 400 kV substation will handle the 1,250 MW of power generated by the future Djelfa combined-cycle power plant - €56.5m
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : implementation and exploitation of WWTP of Boufarik, Wilaya de Blida - €14.5m

Angola

- **SPIE Oil & Gas Services (SPIE)** : turbo machine intervention support on behalf of TOTAL E&P ANGOLA SA - €6m
- **SPIE Oil & Gas Services (SPIE)** : E & I (Electrical and Instrumentation) construction, works for topsides platform on behalf of PAENAL PORTO AMBOIM ESTALEIROS - €5.3m
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Kilonga, design and build of two new water producing systems Bitá (System 4) and Quilonga Grande (System 5) with a capacity of 9 m³/s (for each system) - €151.2m
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : East Hub, EPC supply and delivery - €19.2m

Benin

- **Franzetti (SADE)** : Agetur, drinking water supply : PVC and PE pipes Ø 63-200 (72,000 lm), standpipes (24 u), 300 m³ water tower (1 u) - €2.148m
- **RMT (Clemessy, EIFFAGE)** : refurbishment and construction of substations and network power lines in the big towns in Benin for the SBEE (Benin Water and Electricity Company). The geographical areas of Cotonou, Ouando, Sakete, Allada, Bohicon, Parakou and Natitingou are concerned by this project - €7m
- **Sogea Satom Bénin (VINCI CONSTRUCTION)** : reinforcement and rehabilitation works of the Parakou-Djougou road for the Ministry of Public Works and Transport funded by the West African Development Bank (BOAD) - €29.2m

Cameroon

- **RAZEL-BEC** : roads for the Port of Douala - €4.3m
- **RAZEL-BEC** : Dibamba bridge - €2.5m
- **Sogea Satom Cameroun (VINCI CONSTRUCTION)** : West access of Douala funded by AFD - €57.6m

Cape Verde

- **SADE** : Islands of Sal and São Vicente, seawater desalination plant with a capacity of 5,000 m³/d (2 u) - €15m

Chad

- **SPIE Oil & Gas Services (SPIE)** : operation & maintenance contract renewal, commissioning, exploitation and maintenance of 2 oil production sites on behalf of PETROCHAD (MANGARA) LIMITED - €15m

Egypt

- **SUEZ environnement-Treatment Solutions** : operation and maintenance contract for 5 years for the Gabal El asfar 2A WWTP (500,000 m³/d) in Cairo, including the renovation of all the digestors at the plant, together with the five gas generators, which have a capacity of 2.3 MW each

Equatorial Guinea

- **RAZEL-BEC** : roads in Malabo - €28m

Gabon

- **ETF (EUROVIA)** : contract for the railway ballast renovation with Société d'Exploitation du Transgabonais (SETRAG), a subsidiary of the ERAMET group. The 640-kilometre Trans-Gabon Railway carries 4 million tonnes of manganese annually. This rail link crosses the equatorial forest and connects Moanda in southeastern Gabon to the port of Owendo, near Libreville. The project calls for the implementation and operation of a MATISA CD21 ballast-cleaning machine, a PLASSER 08-32 tamper, and a MATISA R20 regulator. Specific adjustments were made to these machines prior to the project to enable them to withstand extreme weather conditions. As early as September 2014, crews and management personnel worked diligently to clean and renew ballast on the 200-kilometre Owendo-Ndjolé rail segment. The project represents both a technical and human challenge given the environmental conditions and the difficulties of accessing the worksite - €7m

- **RMT (Clemessy, Eiffage)** : engineering and carrying out of the electricity supply facilities for the terminal at Port-Gentil International Airport, along with the safety and protection equipment as well as the passenger information and check-in system - €6.9m
- **SPIE Oil & Gas Services (SPIE)** : maintenance contract renewal on behalf of TOTAL GABON - €3.5m

Ghana

- **BOUYGUES CONSTRUCTION** : extension of the Ridge Hospital of Accra, in order to create a turnkey five storey regional health centre, which will include notably a new building equipped with 420 beds, several operating theatres and a maternity ward. This building is part of a sustainable construction approach with the aim of achieving LEED® Healthcare certification with, in particular, a focus on solar power supply - €160m

Ivory Coast

- **BOUYGUES CONSTRUCTION** : extension of the Tongon mine contract for drilling, mining and earthworks, in partnership with the client Randgold Resources - €27m in 2014 (contract lasting several years)
- **BOUYGUES CONSTRUCTION** : extension and renovation of the Boulevard de France in Abidjan. The construction work includes the earthworks, the laying of the road surface, sewerage and drainage engineering works as well as horizontal and vertical signalling systems. Developed in a highly urbanised environment in which traffic will be maintained, the works will be mainly carried out at night - €14.48m
- **COLAS** : Bandama and Kan rivers, construction of bridges - €21.1m
- **Franzetti (SADE)** : Songon, drinking water supply : cast iron pipes Ø 800 (40,000 lm) - €12m

- **RAZEL-BEC** : roads rehabilitation - €4.2m

Libya

- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : overhauling of 3 MSF (multi-stage flash) units at Khoms and 2 MED (Multiple Effect Distillation) units at Tripoli West, built by Sidem : supply of spares and installation works ; design works for a new process control system at Khoms - €29.7m
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Tobruk, overhauling of 3 MED (Multiple Effect Distillation) units with associated boilers built by Sidem, supply of spares and installation works - €14m

Mali

- **BOUYGUES CONSTRUCTION** : extension of the Goukoto mine contract for drilling, mining and 58 million cubic metres of earthworks, in partnership with the client Randgold Resources - €24m in 2014 (contract lasting several years)
- **RAZEL-BEC** : projects for the MINUSMA in Gao, Kidal and Tessalit - €33.7m
- **SADE** : Bamako, drinking water supply : cast iron pipes Ø 900-1400 (13,700 lm) - €11m

Morocco

- **BOUYGUES CONSTRUCTION** : construction of the Marina Shopping Center, a shopping centre located on the seafront between the Casablanca port and the Hassan II mosque. The project includes a hypermarket, shops, an esplanade, four office towers, all of which will be done on two basement levels (including car parks and delivery areas). The shopping centre will be spread over two 6 m high levels each - €26m
- **BOUYGUES CONSTRUCTION** : construction of a high-end residential complex at the entry point of Rabat. The Prestigia Ryad Al Andalous will include 250 residential units on an overall 85,000 m² surface area - €17m
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : DW alimentation of the city of Khouribga and centers of the phosphate tray from the Aït Massoud dam: lot 1, treatment station and demineralization - €20.9m

Mozambique

- **RAZEL-BEC** : rehabilitation of Maputo Airport - €60m

Niger

- **Sogea Satom Niger (VINCI CONSTRUCTION)** : upgrading and asphaltting of the Gouel-Tondibia-Tondikoirey and Askia Mohamed roads funded by State of Niger / West African Development Bank (BOAD) / ECOWAS Bank for Investment and Development (EBID) for the Ministry of Equipment - €35.6m

Nigeria

- **Entrepose Contracting (VINCI CONSTRUCTION)** : Oben Gas plant expansion for SEPLAT Petroleum - €12m
- **SUEZ environnement-Treatment Solutions** : contract to design and build a 60,000 m³/d DWTP in Abuja

- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Egina oil field, seawater fine filtration package and seawater coarse filtration package equipment selling contract on behalf of Samsung Heavy Industries Co. Ltd for a project of Total Upstream Nigeria Ltd in Lagos - €11.3m

Republic of the Congo

- **BOUYGUES CONSTRUCTION** : reconstruction of RN1 on a 54 km stretch between the cities of Kinkala and Mindouli, in the eastern part of the country (23 km of new road). The works include earthworks, the bituminous pavement and 5 engineering structures - €29m
- **BOUYGUES CONSTRUCTION** : extension of the Kibali mine contract for drilling, mining and earthworks, in partnership with the client Randgold Resources - €27m in 2014 (contract lasting several years)
- **COLAS** : refurbishment of exit 2 on the north side of Brazzaville, upgrading of 16 km roadway - €84.4m
- **RAZEL-BEC** : Corniche Road in Brazzaville and urban laying out of Bacongo and Makelekele neighborhoods - €70m
- **RAZEL-BEC** : Kinsoundi-Sangolo road and Djoue bridge - €28.9m
- **RMT (Clemessy, EIFFAGE)** : contract relating to the rural electrification of 4 district capitals in the Lekoumou department - €13m
- **SPIE Oil & Gas Services (SPIE)** : maintenance contract for the south platforms on behalf of ENI CONGO S.A. - €8.4m
- **SPIE Oil & Gas Services (SPIE)** : Alima and N'Kossa, integrated team to support client's commissioning organisation on behalf of TOTAL E&P CONGO - €13m

Republic of Guinea

- **RMT (Clemessy, EIFFAGE)** : refurbishment and extension work on the electricity supply grid of the city of Conakry and its suburbs on behalf of Electricité de Guinée - €7.9m
- **Sogea Satom Guinée Conakry (VINCI CONSTRUCTION)** : development work of the RN2 funded by the European Union - €54.6m

Senegal

- **Eiffage Sénégal / Eiffage TP (EIFFAGE)** : design and construction of the extension to the Dakar-Diamniadio toll motorway, 16.5 km, 2 by 2, between the Diamniadio junction and Blaise Diagne International Airport - €121m

Tanzania

- **SUEZ environnement-Treatment Solutions** : contract for the Lower Ruvu drinking water production plant extension aiming to raise the plant capacity from 180,000 m³/d to 270,000 m³/d. This extension includes the construction of a new raw water pumping unit, a distribution chamber, new chemical dosing equipment, a Pulsazur™ and four Aquazur™ sand filters, as well as a new treated water pumping unit

Togo

- **Sogea Satom Togo (VINCI CONSTRUCTION)** : reinforcement and rehabilitation works of the RN15 Témédja-Badou-Fre Ghana and Kougnohou section on 94 km funded by the West African Development Bank (BOAD) for the Ministry of Public Works and Equipment - €47m

Uganda

- **Sogea Satom Ouganda (VINCI CONSTRUCTION)** : enhancement and optimization of the water production capacity of the Gbaga water treatment complex « Watsan water project » and improvement of the pipeline for the National Water & Sewerage Corporation funded by EIB / AFD / KfW / EU-Africa Infrastructure Trust Fund (EU-AITF) / State of Uganda - €31.9m
- **Sogea Satom Ouganda (VINCI CONSTRUCTION)** : construction of the main sanitation network of Nakivubo and Kinawataka as part of the protection program of the Lake Victoria in Kampala - €25.2m

NEAR & MIDDLE EAST

Iraq

- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Basrah (lot 3), construction of WTP in Al-Hartha with a capacity of 360,000 m³/day. The implementation of project (packages 3 and 4) will be done in partnership with HITACHI and ARABCO - €35.2m
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Basrah (package 4), pretreatment and desalination RO plant construction with a capacity of 199,000 m³/day of water with specific quality - €53.3m

Jordan

- **SADE** : Amman, AEP : pipes Ø 75 to 1,200 (64,000 lm), control chambers (9 u), suction works (33 u) - €43.14m

Kuwait

- **Menard (Soletanche Freyssinet, VINCI CONSTRUCTION)** : soil improvement works of natural ground by means of dynamic compaction and dynamic replacement for the site preparation of the new refinery Al-Zour, developed by KNPC (Kuwait National Petroleum Company) - €39m

Oman

- **SUEZ environnement-Treatment Solutions** : contract to design and operate for 2 years an 18,000 m³/d capacity WWTP in Al-Amerat
- **SUEZ environnement-Treatment Solutions** : contract for the Doha West wastewater treatment and recycling plant extension aiming to raise the plant capacity from 175,500 m³/d to 280,000 m³/d for an estimated population of 1,040,000 inhabitants
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Design, Build and Operation of a 6,000 m³/d brackish water reverse osmosis plant and supporting infrastructure works, located in Khazzan Gas field, for BP - €22.5m

Qatar

- **BOUYGUES CONSTRUCTION** : construction of the New Orbital Highway, a project comprising eight access ramps on four interchanges. It will connect Salwa Road, to the Messaied industrial zone, and the new Doha port, currently under construction - €39m
- **Qatari Diar Vinci Construction (QDVC)**, 60% / Bin Omran Trading & Contracting, 40% : New Orbital Highway, design and build of 47 kilometers of highway, 6 viaducts, 17 bridges and a 320 meters long tunnel built in cut and cover. This section of motorway will have 2x5 lanes for light vehicles, plus two on each side lanes for trucks - €186.6m (VINCI Construction share)

- **Qatari Diar Vinci Construction (QDVC)** : Lusail Light Rail Transit, joint venture between VINCI Construction Grands Projets (49%) and Qatari Diar Vinci Construction (51%) for the phases 2C2 and 2C3 and joint venture between ALSTOM (25%) and Qatari Diar Vinci Construction (75%) for the phase IMAC : design and build project, which will be directed by Qatari Diar Vinci Construction in consortium with Alstom. It includes the construction of 25 stations, a depot, architectural and electromechanical items and the project management. The project includes the delivery by Alstom of 35 trains equipped with a catenary-free technology, tracks laying,

energy supply, telecommunication and control system. The commissioning of this light rail is expected in 2018 (yellow line) and 2020 (green, red and purple lines) - €515.2m and €58.7m (VINCI Construction Grands Projets share)

Saudi Arabia

- **SPIE Oil & Gas Services (SPIE)** : construction supervision and commissioning contract for new cement production unit on behalf of LAFARGE - €3m

- **SUEZ environnement-Treatment Solutions** : contract to design and supply process water treatment systems and demineralization units for two thermal power plants in the Riyadh region
- **SUEZ environnement-Treatment Solutions** : contract to design and supply condensate polishing systems for the Yanbu thermal power plant

United Arab Emirates

- **Eiffage Construction Métallique (EIFFAGE)** : production and installation of 13 radar platforms for Thales Advanced Solutions - €3.5m
- **SPIE Oil & Gas Services (SPIE)** : engineering supervision contract for Zubair facilities on behalf of ENI - €4.5m

- **SUEZ environnement-Treatment Solutions** : contract with Masdar to design, build, operate and evaluate an advanced desalination pilot plant which will be more energy-efficient than the current state-of-the-art desalination systems, and potentially powered by renewable energy sources
- **SUEZ environnement-Treatment Solutions** : contract to design, build, and operate for 7 years the reverse osmosis desalination plant (140,000 m³/d) of Mirfa in the Emirate of Abu Dhabi
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Al Aweer STP, design, engineering, procurement, supply, installation and commissioning of 65,000 m³/day sewage treatment plant - €29.5m

ASIA / OCEANIA

Australia

- **BOUYGUES CONSTRUCTION** : construction of the Homebush Bay Bridge in Sydney. The bridge will be intended for public transport, cyclists and pedestrians - €18.22m
- **Entrepose Industries (VINCI CONSTRUCTION)** : fabrication of a Water Intake Riser for the "Prelude FLNG" for Technip - €24m
- **Freyssinet (Soletanche Freyssinet, VINCI CONSTRUCTION)** : Western Australia, Geraldton steel silos, refurbishment - €20m
- **Spiecapag (Entrepose Contracting, VINCI CONSTRUCTION)**, leader (60%) / Lucas, 40% : construction of a 8" diameter x 300 km gas pipeline in Western Australia. This pipeline will aim at feeding a power plant for the gold mines of AngloGold Ashanti - €27m
- **SPIE Oil & Gas Services (SPIE)** : technical assistance on asset support and engineering services (3 years + 2) on behalf of Woodside Energy Ltd. - €6.8m

China / Hong-Kong

- **Bachy Soletanche Group (Soletanche Bachy, Soletanche Freyssinet, VINCI CONSTRUCTION)** : Hong Kong, Kowloon Cultural District, foundation of the future museum M + "Museum for visual culture": 72 large-diameter piles and 400 piles 600 mm diameter (depth 60 m), perimeter and retaining sheet pile curtain injections. The works will be carried out on either side of a subway line buried with control of settlement and movement of the line - €37m

- **Bachy Soletanche Macao (Soletanche Bachy, Soletanche Freyssinet, VINCI CONSTRUCTION)** : Hotel Casino Complex, Cotai Macau, execution of a part of foundations of the tower Lisboa

Palace, which will include the casino SJM and hotels : 49 injected barrettes (depth 80 to 100 m), excavation 15,000 m² ; successfully loading test at 4 500T by the Osterberg Cell System - €15m

- **BOUYGUES CONSTRUCTION** : construction of 2x2 tunnels intended to equip the 6 km extension of the underground line Shatin to Central Link. These tunnels are part of the large-scale infrastructure projects currently underway in the city : they will link tourist sites to the business district - €490m

- **BOUYGUES CONSTRUCTION** : supply, installation, tests and commissioning of electrical equipment of Parisian Macao, the new hotel site of Cotai - €38m
- **Freyssinet (Soletanche Freyssinet, VINCI CONSTRUCTION)** : Lian Tang C3 bridge, construction of interchange PT Viaducts, near the Chinese border - €25m
- **Freyssinet (Soletanche Freyssinet, VINCI CONSTRUCTION)** : Tuen Mun to Chek Lap Kok viaduct, construction of interchange PT viaducts linking Lantau Island and the artificial island prolonging the Hong Kong International Airport : balanced cantilever precast segmental bridge - €70m

- **Nuvia Protection (Nuvia, Soletanche Freyssinet, VINCI CONSTRUCTION)** : Taishan EPR reactors, supply and technical support contract for the protection of seals between buildings (over 4 km of seals for each unit on the site) - €9m

- **SUEZ environnement-Treatment Solutions** : contract to design and supply equipment for the WWTP refurbishment (38,400m³/d) of the Petrochina refinery in Lanzhou

India

- **SUEZ environnement-Treatment Solutions** : design, build and 7 years of operation contract for 2 WWTP. The plant of Chikkabanavara will treat 5,000 m³/d and the Kadugodi plant will treat 6,000 m³/d
- **SUEZ environnement-Treatment Solutions** : design, build and 5 years of operation and maintenance contract for a DWTP (2.5 millions of inhabitants) in Pune

Japan

- **SUEZ environnement-Treatment Solutions** : renovation and replacement of the 4,344 dielectrics by new generation dielectrics of the ozone generator (producing 120 kg/h of ozone at 12 wt%) for the Nippon Paper plant in Yufutsu

Singapore

- **Bachy Soletanche Singapore / Soletanche Bachy International / CSM Bessac (Soletanche Bachy, Soletanche Freyssinet, VINCI CONSTRUCTION) / Penta Ocean** : construction of the Orchard station and associated tunnels for the new Thomson Line Subway - €133m (total contract value : €296m)

- **Bachy Soletanche Singapore / Soletanche Bachy International (Soletanche Bachy, Soletanche Freyssinet, VINCI CONSTRUCTION) / Nishimatsu Construction** : new Thomson Line, construction of the Gardens by the Bay station and associated tunnels : execution of diaphragm walls, bored piles and extensive soil improvement campaign in the Marina Bay area - €54m (total contract value : €197m)

- **Bachy Soletanche Singapore (Soletanche Freyssinet, VINCI CONSTRUCTION)** : construction of the Upper Thomson station (Thomson Line), execution of diaphragm walls. The group is subcontractor of Sato Kogyo, Japanese contractor - €14m

- **BOUYGUES CONSTRUCTION** : development, on a design-construction basis, of a high-end residential complex located in the Orchard area. Christened New Futura, it will contain 124 apartments divided between two 36 floor towers, as well as a car park over 3 levels - €92m
- **BOUYGUES CONSTRUCTION** : development, on a design-construction basis, of a residential complex consisting of 266 apartments and 28 shops divided into 4 blocks of 18 floors. This project named The Venue will be located near the Potong Pasir metro station - €68m
- **BOUYGUES CONSTRUCTION** : 10,000 m² extension for the hotel Crowne Plaza located near the airport. The project is based on a modular construction system thanks to which the extension can be completed in just 17 months. This type of construction, besides having economic benefits, is also more environment-friendly - €37m
- **Geostock SAS (Entrepose Contracting, VINCI CONSTRUCTION), 35% / Vopak Terminals Singapore, 45% / JURONG Consultants, 20%** : 15 years operation contract of the Jurong Roch Caverns for Singapour JTC Corporation

Thailand

- **BOUYGUES CONSTRUCTION** : construction of the Australian embassy in Bangkok. The building will be established on a 16,000 m² surface area in the locality of Pathum Wan and will combine Australian and Thai standards - €67m

Turkmenistan

- **VINCI Construction Grands Projets (VINCI CONSTRUCTION)** : Fontaines Avenue, design-build and modernization of a park with a total area of 170,000 m³ composed of 13 fountains (3,675 m²), paths and square granite (50,818 m²), 90,385 m² of green spaces and 2,395 m² of roads - €52.2m

Vietnam

- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Ho Chi Minh, upgrading of existing wastewater treatment plant by additional 328,000 m³/day (existing capacity of 141,000 m³/day) - €26.7m

NORTH AMERICA

Canada

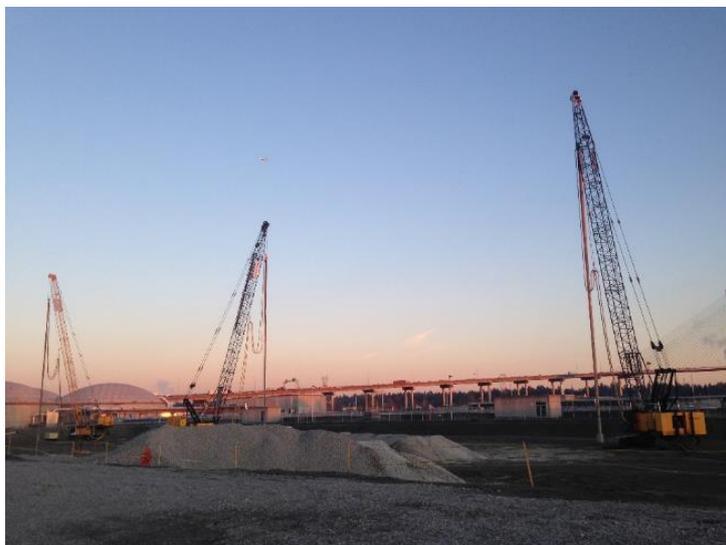

- **Carmacks (EUROVIA)** : contract to widen two stretches of Highway 63 to 2x2 lanes in the vicinity of the House and Biche rivers on behalf of Alberta's Ministry of Transport. The project will extend over a total of some 51 km and includes the construction of three bridges. The works involve creating the base, foundation and surface layers ; started in 2014, they will be completed in summer 2015 - €116.8m
- **Carmacks (EUROVIA)** : contract for the widening of the last section of Highway 63. This major highway, which connects Edmonton to Fort McMurray and Alberta's oil sands, has recently

undergone multiple safety upgrades and widening schemes. This contract calls for the construction of additional lanes over a 12.5-kilometre northbound stretch - €49.4m

- **Carmacks (EUROVIA)** : contract for the twinning of another section of Highway 63 near La Biche River, approximately 22 km in length. Works have commenced at spring 2014 with completion in the summer of 2015 - €21.7m
- **COLAS** : Hwy 63 (Alberta) - Parsons Creek East Arterial Interchange, 9.1 km of new roadway ; Mariana Lake, 31.4 km of twinning highway ; Fort Hills (Alberta), design and construction of 17.34 km roadway ; Fort McKay, overlay works - €122.5m

- **COLAS** : Hwy 69, contract n°2 near to Fort McMurray (Alberta), improvements to existing roadway - €24m
- **COLAS** : Oakanagon/Kookney Division, North Division, Thompson/Caribou Division and Vancouver Island (British Columbia), 5 years line painting contract - €32.4m
- **Geopac (Menard, Soletanche Freyssinet, VINCI CONSTRUCTION)** : expansion of the Annacis Island waste water treatment plant, execution of vibro densification to 35 m depth for Metro Vancouver - €17m

- **ICCI (EIFFAGE)** : MacKay river bridge on local road at Fort Mackay for the Regional Municipality of Wood Buffalo (Alberta) - \$CA23.1m
- **SUEZ environnement-Treatment Solutions** : contract to supply an ion exchanger system for the process water treatment for the Cenovus Energy extension project in Christina Lake

United States

- **Blythe Construction (EUROVIA)** : design-build contract to widen a section of I-85 in North Carolina and to improve its interchanges. The upgrade is designed to improve traffic flow along the busy 12 km section by widening it from four to eight lanes. The project also includes the demolition and reconstruction of 11 bridges and viaducts (including a railway viaduct over the motorway) and construction of an interchange. Handover is scheduled in December 2017 - €134m
- **COLAS** : Luzerne County (Pennsylvania), I-81 (358), construction of 4 single span steel plate girder bridges and removal of 4 bridges - €20.3m
- **COLAS** : Columbia County (South Carolina), Washington road, widening of 3 miles of highway - €21.5m
- **COLAS** : Nenana (Alaska), Parks Highway, point MP 239-252, rehabilitation of 13 miles of roadway and adding 2 passing lanes - €21.1m
- **SUEZ environnement-Treatment Solutions** : contract to design, manufacture and supply 2 complete treatment lines including ultrafiltration, reverse osmosis and electrodeionization for Virginia Power Company
- **SUEZ environnement-Treatment Solutions** : contract to design and supply a Thermylis®2S thermal oxidation system for the disposal of wastewater sewage sludge. The Thermylis® 2S technology selected complies with new US regulations on sewage sludge-related air pollution (US EPA MACT 129), which are set to enter into force in 2016
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : furniture of the material and equipment for the « USGC Petrochemicals » project located in Baytown (Texas) on behalf of Chevron Phillips - €12.8m

LATIN AMERICA

Brazil

- **SUEZ environnement-Treatment Solutions** : contract for the engineering, procurement and construction of 2 water treatment facilities for Klabin, the biggest producer and exporter of packaging paper in Brazil (5,900 m³/h for the process water plant and 600 m³/h for the boiler feed)
- **SUEZ environnement-Treatment Solutions** : contracts to design and supply water treatments units for FPSO offshore of the Brazilian coast for Petrobras and MODEC-TOYO

Chile

- **Bitumix (EUROVIA)** : maintenance initiatives targeting various highway concessions located in the regions of Santiago (Autopistas del Sol and Autopistas de los Libertadores), Valparaiso (Rutas del Pacifico) and Coquimbo (Autopista del Elqui). The project encompasses various services, including applying a resurfacing layer, very thin bituminous concrete, a cold-mix process, and crack sealants, stabilizing unbound aggregates, and building a longitudinal drainage system. Delivery is set for December 2014 - €8m

- **Eiffage Energia (EIFFAGE)** : civil engineering and electromechanical maintenance of the high voltage line Las Palmas in the wind farm Punta Palmeras for Acciona Energia - €3.8m
- **Eiffage Energia (EIFFAGE)** : construction of a solar power station in Javiera for Sun Edison - €4m
- **Géocœan (Entrepose Contracting, VINCI CONSTRUCTION)** : contract for 2 water intakes and one water outfall for a desalination plant for Minera Escondida Ltda - €56m (Géocœan share)

Colombia

- **Puentes & Torones (EIFFAGE)** : construction of a bridge in the area of Mata de Cacao for ICT II - €12.2m
- **Soletanche Bachy International / Cimas (Soletanche Bachy, Soletanche Freyssinet, VINCI CONSTRUCTION) / Concreto** : development of the port of Buenaventura on the Pacific coast on behalf of ICTSI (Philippine developer) and Port of Singapore Authority, realization of the new installations of wharves for containers : installation of piles, precast beams, cast in situ concrete platform, fenders and bollards - €90m

- **Soletanche Bachy International / Cimas (Soletanche Bachy, Soletanche Freyssinet, VINCI CONSTRUCTION) / Concreto** : Buenaventura, construction of a wharf dealing with the coal trading activities of Boscoal, close to the new container terminal. The works include terrestrial facilities (access, contention, arrangements of the future embankments) and associated marine works (loading/unloading, gateway for connection etc...) - €65m
- **VEOLIA WATER SOLUTIONS & TECHNOLOGIES** : Castilla III, EP at produced water treatment, sludge treatment, phenol treatment and cooling water - €55.6m

Dominican Republic

- **Qatari Diar Vinci Construction (QDVC)** : design project of 352 kilometers sewage networks, 16 pumping stations and 8 treatment plants. The funding is secured for the construction of 128 km of gravity sewerage networks, 4 pumping stations and 3 treatment plants in Monte Cristi, Villa Vasquez and San Cristobal - €107.7m

Ecuador

- **SADE** : Guayaquil, network maintenance agreement for drinking water in the NORD 1 Zone - €1.262m
- **SADE** : Guayaquil, San Lorenzo Sabana Grande, drinking water supply : DN 90-160 PVC pipes, 250 m³ steel tank (29,000 lm), pumping station (1 u) - €0.928m
- **SADE** : Suburbio CTP 58 and 60, restoration of drinking water supply : PE pipe (13,000 lm), 250 and 300 m³ vitrified steel tanks (2 u), pumping station (1 u) - €0.885m
- **SADE** : Guayaquil, sanitation : DN 700 mm reinforced concrete collector - €0.845m
- **SADE** : Francisco de Orellana, drinking water supply : creation of a bypass between DN 2,000 mm steel pipe and DN 1,000 mm PRV pipe - €0.7m
- **SADE** : San Lorenzo Sabana Grande (phase 2), drinking water supply : 250 and 300 m³ vitrified steel tanks (2 u), pumping station (1 u) - €0.628m

Mexico

- **Freyssinet (Soletanche Freyssinet, VINCI CONSTRUCTION)** : Coyuca bridge (phase 1), reconstruction - €25m
- **SUEZ environnement-Treatment Solutions** : operation and maintenance contract for 3 years for 2 WWTP (La Morita and Los Olivos) signed with the Water Office of Tijuana (1.3 million of inhabitants)

Peru

- **SADE** : Pachacutec (Lima), drinking water supply : cast iron pipes Ø 80 to 450 (26,000 lm), cast iron pipes Ø 500 to 1000 (12,000 lm), PVC sewage network (320,000 lm) - €80m
