
MAIN INTERNATIONAL CONTRACTS OBTAINED IN 2022 BY GEOGRAPHICAL AREA

MAIN INTERNATIONAL CONTRACTS OBTAINED IN 2022

- BY GEOGRAPHICAL AREA -

March 2024

EUROPE

Belgium

- ▮ **ARGEA (SADE)** : connection between the Andenne and Ohey reservoirs. This drinking water supply pipe includes the laying of 9,300 m of PN 16 and PN 25 steel pipes in DN 600 as well as 1,020 m of DN 200 to 250 mm pipes. 80 m of pipes will be laid under rivers – €9.6m
- ▮ **ARGEA (SADE)** : section n°2 for the construction of the Villers-Le-Bouillet and Huccorgne connection pipe. The contract includes the supply and laying of 8,550 m of PN 16 and PN 25 steel pipes, DN 800, 1,560 m of PVC DN 200 and 590 m of ductile iron DN80 and 100 mm. A 7 m passage under a river will be constructed – €9m
- ▮ **Eiffage Benelux (EIFFAGE)** : construction of new Defence headquarters in Brussels for the Ministry of Defence – €499m (*Eiffage share: 33% of the project's construction budget*)

- ▮ **Eiffage Benelux (EIFFAGE)** : Europa terminal in Antwerp – €335m

- ▶ **SPIE Belgium (SPIE) : Tour Victoria Regina in Brussels, multi-use building (hotel, restaurant, offices, co-working) on 22 levels, HVAC and electricity – €15.5m**

- ▶ **SPIE Belgium (SPIE) : cable trays and 11 kV in the subway in Brussels – €11.3m**

- ▶ **SPIE Belgium (SPIE) : e-bus high power chargers on behalf of De Lijn – €10.8m**

- ▶ **SPIE Belgium (SPIE)** : office building « The Wings », geothermics, ventilation, cooling, heating, cold ceilings – €9m

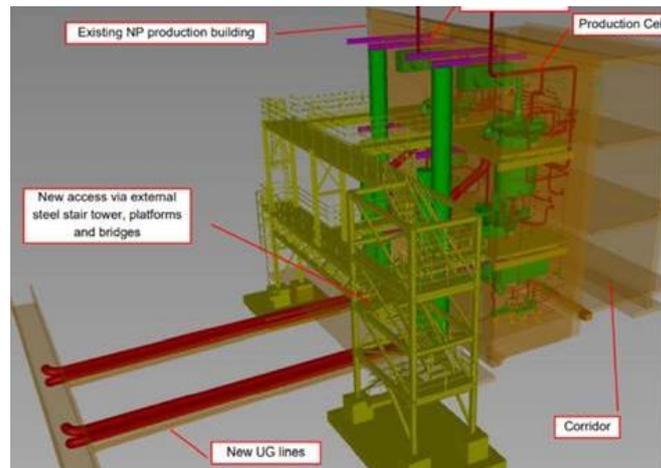

- ▶ **SPIE Belgium (SPIE)** : BIVV project, detailed engineering (SPIE Nederland), black piping (SPIE Belgium) for new production lines and modifying existing installation on behalf of Sanofi – €5.2m

- ▶ **SPIE Belgium (SPIE)** : Tech FM contract (400 branches, 20 regional sites, 2 large offices in Brussels) on behalf of ING Belgium – €4.5m

- ▶ **SPIE Belgium (SPIE)** : replacement of 4 reactors, 3D modelling and detailed engineering, installation of steel structure, piping, electrical connections and instrumentation on behalf of Nouryon Ghlin – €4.1m

- ▶ **SPIE Belgium (SPIE)** : system for management on distance for tunnels on the Walloon road network on behalf of SPW – €4.1m

Croatia

- ▶ **Colas Hrvatska (COLAS)** : construction of the Lekenik-Sisak section of the A11 Zagreb-Sisak Highway – €31m

Czech Republic

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : complete reconstruction of the existing streetcar depot in Hloubetin, a district of Prague – €50m

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : transformation of a brownfield site into a residential area in Prague's Hloubětín district – €26m
- ▶ **Colas Cz (COLAS)** : reconstruction of a section of Route D1 in the Moravian-Silesian Region – €12m
- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : expansion and renovation of electrical power transmission grids above 50 kV, on behalf of ČEPS, a.s. – €14.5m

Denmark

- ▶ **Cobra IS (VINCI)** : design & build and maintenance contract for the electromechanical infrastructure of the 18-km-long Femern tunnel between Germany and Denmark. It focuses primarily on ventilation, lighting and safety systems, plus maintenance for the electromechanical systems into the five tubes of the tunnel (two for highway road, two for high-speed rail, and one for service gallery) over the next six years – €535m

Finland

- ▶ **Destia Rail (COLAS)** : railway maintenance works in North Savo – €28m
- ▶ **Destia Rail (COLAS)** : construction of railway track in Kainuu – €20m
- ▶ **Destia Rail (COLAS)** : 5-year road maintenance contract in Oulu – €15m

Germany

- ▶ **Cobra IS (VINCI) / Sener** : EPC contract to build Germany's first regasification terminal, located at Brunsbüttel at the mouth of the Elbe, on the North Sea. It includes two 165,000 m³ storage tanks with a production capacity of 10 billion m³ of natural gas per year.

- ▶ **Dragados Offshore (Cobra IS, VINCI) / Siemens Energy** : contract to design, build and install two offshore windfarm energy converter platforms, in the North Sea, with a total transmission capacity of 1.8 GW – ~€1 Bn (VINCI share)
- ▶ **Eiffage Infra Bau (EIFFAGE)** : Duisburg station (2 contracts: civil engineering and rail tracks) – €83m
- ▶ **Eiffage Infra Bau (EIFFAGE)** : Untertürkheim rail technicentre – €41m
- ▶ **Eiffage Infra Bau (EIFFAGE)** : Rastatt tunnel development – €38m
- ▶ **Eiffage Infra Bau (EIFFAGE)** : Kaiserberg A3/A40 motorway interchange – €32m
- ▶ **Eiffage Infra Bau (EIFFAGE)** : sanitation works in Munster – €22m
- ▶ **Elomech (Eiffage Énergie Systèmes, EIFFAGE)** : Mülheim Airship Hangar, an unique project for one of the world's last airships. The hangar is a wooden building made from some 557 tonnes of timber. This is a key feature of a modern, circular and above all, sustainable building – €0.5m

- ▶ **Elomech (Eiffage Énergie Systèmes, EIFFAGE)** : BioNtech Office, construction of a five-storey building including offices, an animal laboratory and a breeding centre in Mainz (Rheinland-Pfalz) – €12m

- ▶ **Elomech (Eiffage Énergie Systèmes, EIFFAGE)** : Matchbox, 10-storey building with offices and administration building in Frankfurt – €5m

- ▶ **SEH (Eiffage Métal, EIFFAGE)** : Duisburg station (metal and glass frames) – €99m
- ▶ **Smulders (Eiffage Métal, EIFFAGE)** : Ostwind 3 offshore wind farm, topside and jacket – €186m
- ▶ **Smulders (Eiffage Métal, EIFFAGE)** : He Dreiht offshore wind farm, transition pieces – €128m

- **Smulders (Eiffage Métal, EIFFAGE)** : Borkum Riffgrund 3 and Godewind 3 offshore wind farms – €60m
- **SPIE Deutschland und Zentral Europa (SPIE DZE)** : new construction of 48 pylons and 6 temporary structures, road construction and erection of foundations, steel construction and erection of pylons, replacement of cables over 1.4 km, dismantling of 58 existing pylons, on behalf of TenneT TSO GmbH – €58.5m

- **SPIE Deutschland und Zentral Europa (SPIE DZE)** : framework agreement grid construction on behalf of HanseWerk AG: gas civil engineering and pipeline construction work; house connections, network expansions, GDRA maintenance, odorization, fault clearance & readiness; services in the electricity distribution grid including house connections, grid extensions, grid renovation work and maintenance – €56m

- **SPIE Deutschland und Zentral Europa (SPIE DZE)** : new construction of 110-380-kV high-voltage overhead line (approx. 17 km) including construction of 110-kV and 220-kV temporary structures as well as various conversion and dismantling works, on behalf of Amprion GmbH – €49.9m

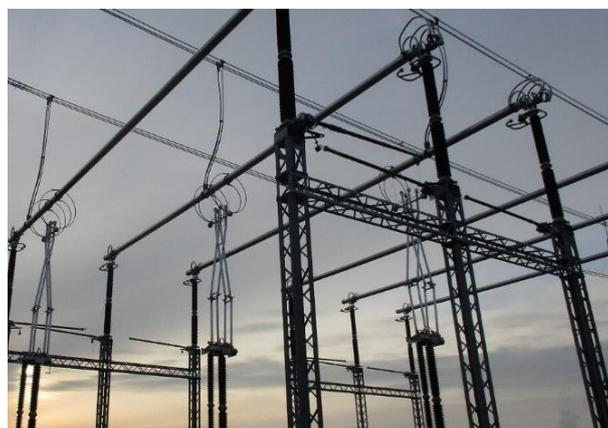

- **SPIE Deutschland und Zentral Europa (SPIE DZE)** : Tech FM at existing properties including maintenance, operation and Facility Management on behalf of DEKA Immobilien Investment GmbH – €28.8m

- **SPIE Deutschland und Zentral Europa (SPIE DZE)** : Smart city, solutions and traffic engineering including installation of public lighting systems, traffic lights, video surveillance, road and other networks, on behalf of DEGES Deutsche Einheit Fernstraßenplanungs- und -bau GmbH – €26.7m

- **SPIE Deutschland und Zentral Europa (SPIE DZE)** : infrastructure substation UW03 110-30-10 kV, 150 MVA on an datacenter site, on behalf of InterXion Real Estate I B.V. – €26.4m

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : implementation of uniform communication, IP networks, data security, data centers, workplace equipment, ICT cabling at a new facility, on behalf of State Capital Munich (Bavaria) – €25m

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : surface and civil engineering works, cable laying, fiber optics and house connections as part of the broadband expansion in Weimar-City and surrounding communities – €20m

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : operational equipment (complete technology, e.g. power supply, safety and control technology, lightning) for a newly constructed port tunnel and maintenance for 5 years, on behalf of BIS GmbH – €15.9m

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : portfolio contract extended for 11 building in the plant including « Factory 56 » (most modern smart car factory) and lot 3 for Tech FM with operation, maintenance, inspection, and repair cross-sectional lots (washing systems, gates, fire extinguishers), on behalf of Mercedes Benz Group AG – €15.7m

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : contract with 50Hertz Transmission GmbH for temporary road construction, foundation of 76 masts (9 driven pile foundations, 67 slab foundations), mast assembly, delivery of TAL cables and fittings, cable pull for 24.1 km and fiber optic installation – €14.3m

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : complete renewal 110 kV substation on behalf of Netze BW GmbH – €13.8m
- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : Technical Facility Management at several properties of Germany's capital Berlin's cultural portfolio including monitoring and control services for infrastructural services and construction requirements planning through to IT-supported services, on behalf of BIM Berliner Immobilienmanagement GmbH – €13m

Hungary

- ▮ **Colas Hungaria (COLAS)** : construction of the Bányóterenyé bypass on Route 23 – €18 Mns
- ▮ **Colas Hungaria (COLAS)** : reinforcement and extension of a section of Route 441 – €24m

- ▮ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : substation, OHL and MV connection works of PV plant design, construction, installation commissioning, including material and equipment supply, on behalf of Ib Vogt GmbH – €6.1m

Italy

- ▮ **Eiffage Énergie Systèmes (EIFFAGE) / CGG Spa Construction (project lead) / ISA façades (principal)** : construction of electrical and mechanical systems for Building D, the underground parking and the square above – €15m

- **Eiffage Énergie Systèmes (EIFFAGE) / Nessi & Maiocchi (primary contractor)** : redevelopment of the building at 21 Via Nervesa in Milan, including the mechanical and electrical installations – €8.1m

- **Eiffage Énergie Systèmes (EIFFAGE) / Colombo Costruzioni SpA (project lead) / Nessi & Majocchi Costruzioni and AZA SpA façades (principals)** : construction of electrical and mechanical systems for building G+H, the underground parking and square and outdoor spaces above, as part of the Symbiosis project in Milan – €35.6m

- **VWT Italy (VEOLIA WATER TECHNOLOGIES)** : design, engineering and supply of an ultrapure water plant from the city water supply of Catania. The client operates in the market for battery systems in electric vehicles, such as traction inverters or on-board chargers

Monaco

- **VINCI Construction** : phase 1 of the new Princess Grace Hospital in Monaco including the structure, core and shell. This contract covers construction of the first new building, which will comprise 16 storeys and a 6-level underground car park and span a total of 65,000 sq. metres of floor space. This project is part of VINCI Construction's plan to mainstream the use of Exegy® low-carbon concrete: 85% of the concrete used at the worksite will be low-carbon, and thus reduce greenhouse gas emissions by 30% – €98m

The Netherlands

- ▀ **Eiffage Énergie Systèmes (EIFFAGE)** : renovation of the HUB50 national police building in Utrecht – €13m

- ▀ **Eiffage Énergie Systèmes (EIFFAGE)** : Genmab laboratory (cancer drug research) in Utrecht, installation of wastewater, drinking water, HVAC, fire safety, fire alarm, evacuation, solar protection and building automation systems, medical gases, cold chambers, cryogenic installations, data networks, lighting, and energy distribution system – €10m

- ▮ **Eiffage Énergie Systèmes (EIFFAGE)** : new clean room at the Ardena cancer research laboratory in Oss – €13m

- ▮ **Eiffage Énergie Systèmes (EIFFAGE)** : WFI distribution process skid, rupture basins and distribution skids for the Lonza WFI module – €5m

- ▮ **Eiffage Énergie Systèmes (EIFFAGE)** : Kite Pharma Hoofddorp, contamination control and projects – €5m

- ▶ **SPIE Nederland (SPIE) / Heijmans** : new construction of approximately 23,000 m² GFA physical laboratories and a small number of chemical and biolabs for the Faculty of Applied Sciences. The project includes design, realization, management and maintenance – €136.3m

- ▶ **SPIE Nederland (SPIE) / Equans (groupe Bouygues)** : redesign and realization of the expansion of Lounge 1 at Amsterdam Airport Schiphol – €98.6m

- ▶ **SPIE Nederland (SPIE)** : realization of 5 new NXT production cabins. The project includes design, realization and UAV maintenance – €21.8m

- ▶ **SPIE Nederland (SPIE)** : design and realization of the new simulator building at Schiphol East, called 203Y, to accommodate new Full Flight simulators – €21.5m

- ▶ **SPIE Nederland (SPIE)** : removal of the HV-lines, HV-towers and foundations as preparation for the new high-voltage connections between Borssele and Rilland, on behalf of Tennet TSO – €12.5m

- ▶ **SPIE Nederland (SPIE)** : design and realization of the renovation and rearrangement of an existing building on behalf of ASML – €9.6m

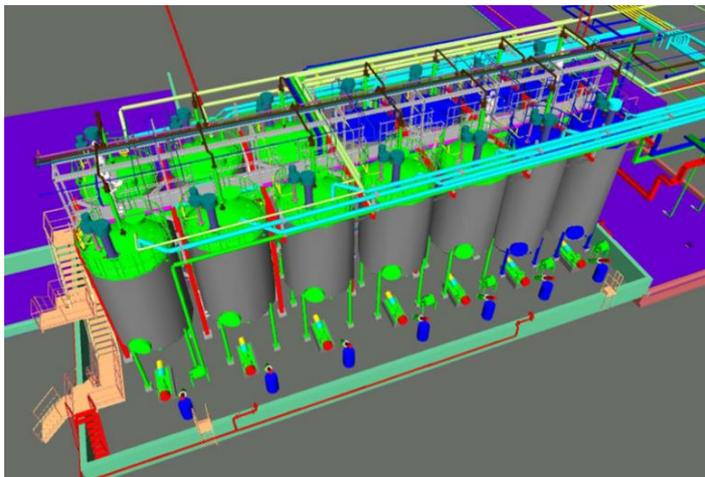

- **SPIE Nederland (SPIE)** : movable barrier in IJmuiden consisting of steel constructions (movable barrier 20 x 7.5 mtr), mechanical drivelines and electrical installations, on behalf of Rijkswaterstaat / Van Hattum & Blankevoort – €5.4m

- **SPIE Nederland (SPIE)** : upgrade tank storage (TP20), including detail engineering, piping & mechanical, electrical & instrumentation, civil, demolition and fire fighting, on behalf of Allnex – €4.2m

Norway

- **Eiffage Génie Civil (EIFFAGE)** : E18 motorway works, package 2 Alnner-Kjorholt – €422m (3 contracts)

Poland

- **Bouygues Bâtiment International (Bouygues Construction)** : as part of the investment, we will build a multi-family residential building with commercial premises and a garage. The new building will be constructed at five Instalatorów Street in Warsaw. The design of the estate includes the creation of residential and recreational spaces that respect both residents and the environment. The buildings have been designed with solutions that reduce energy consumption in common areas – €26m

- **Bouygues Bâtiment International (Bouygues Construction)** : pharmaceutical building in Warsaw – €48m

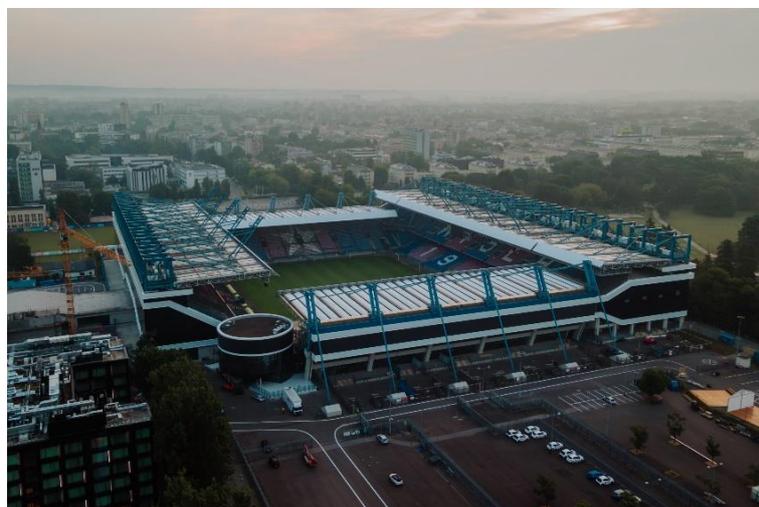

- **Eiffage Polska Budownictwo:** Infinity, a seven-storey Class A office building in Wrocław with 18,727 m² of office space, 1,561 m² of retail space and three underground parking levels containing 311 spaces for cars and 120 for bikes – €30m

- **Eiffage Polska Budownictwo:** Belmonte 5-star Hotel & Resort, with a floor space of 17,700 m² and a capacity of 254-room – €19.4m (84 million Polish Zloty)

- **Eiffage Polska Budownictwo (EIFFAGE) :** Krakow stadium – Over €21m

- **Eiffage Polska Budownictwo (EIFFAGE)** : facade renovation for the Spomasz production building with a size of 4,564 m² – €0.75m (3.23 million Polish Zloty)

- **Eiffage Polska Budownictwo / Eiffage Immobilier Polska (EIFFAGE)** : Kierbedzia project including 128 homes + 2 service rooms with an usable apartment space of 5,918 m² – €9.7m (42 million Polish Zloty)

- **Eiffage Polska Budownictwo / Eiffage Immobilier Polska (EIFFAGE)** : Marcelesińska project, including 144 apartments with an usable apartment space of 8,600 m². The project involves two buildings, one containing 106 apartments and the other 38 – €14.2m (61.5 million Polish Zloty)

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : energy works (GPO station, high-voltage, medium-voltage and fiber-optic network) for the construction of a wind farm, on behalf of RWE Renewables Poland Sp. z o.o. – €5.1m

Portugal

- ▶ **Eiffage Énergie Systèmes (EIFFAGE)** : construction of the electrical distribution and maintenance system for E-REDES – €13.5m
- ▶ **Eiffage Énergie Systèmes (EIFFAGE)** : IBET, Biotechnology Institute new building construction for Teixeira Duarte – €5.7m
- ▶ **Eiffage Énergie Systèmes (EIFFAGE)** : construction of the Barcos substation and OHL construction for Vertente Planetária (Aquila Capital) – €3.7m

Slovakia

- ▶ **SPIE Deutschland und Zentral Europa (SPIE DZE)** : replacement of conductors, pre-insulation of 400 kV - V428, on behalf of Slovenská elektrizačná prenosová sústava, a.s. – €9.9m

Spain

- ▶ **Eiffage Énergie Systèmes (EIFFAGE)** : maintenance of electrical and distribution systems in the Badajoz, Huesca, Teruel and Zaragoza areas on behalf of ENEL – €40m
- ▶ **Eiffage Énergie Systèmes (EIFFAGE)** : construction of five 50 MWp solar power plants in Cuenca on behalf of Elawan – €128m
- ▶ **Eiffage Énergie Systèmes (EIFFAGE)** : construction of a traction substation in Valladolid – Over €9m

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : development, financing, building and operating a new eco-neighbourhood « Quai Vernets », that will contain 1,355 homes, premises for activities relating to the social economy, public spaces, a co-working office complex and school facilities. The neighborhood will only be powered by renewable energies and will be 100% dedicated to soft mobility without any car – €475m

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : Lausanne Biopole – €55m
- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : 61 rental apartments, 29 owner-occupied apartments and 500 m² of retail space will be built in the heart of Boll. The six buildings, comprising a range of apartments from 1.5 to 5.5 rooms, have been designed and will be built in compliance with the Minergie-ECO standard, a guarantee of healthy, environmentally-friendly construction. The 120 kWp photovoltaic system is being installed by a contractor. Thanks to the self-consumption community, the energy generated on site will be directly redistributed to tenants and owners. Charging stations for electric vehicles and bicycles are also planned – €44m

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : Centre Rhône Fusterie, refurbishment of an 11,000 m² office building in Geneva – €39m
- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : construction of a flower purse comprising a two-storey building in Kerzers, on the outskirts of Bern. The central part of this building will feature a large atrium and market square, providing access to various areas such as the greenhouse, flower hall, nursery and gardening equipment area. Upstairs, a modern training room will serve as a venue for floristry and specialized training courses, as well as hosting various events – €28m

- Bouygues Bâtiment International (Bouygues Construction)** : development and building of a hybrid wood service building in Bern with a total floor area of 21,000 m² spread over five floors – €62m

- Bouygues Energies et Services (Bouygues Construction)** : Facility Management contract for Swiss Federal Railways – €48m

United Kingdom

- Bouygues Bâtiment International (Bouygues Construction)** : first phase of a housing project development in the Southwark district, in the heart of London (Tustin Estate project). The development will comprise 250 rebuilt social housing units, 440 social and residential units and 18,000 m² of retail space. The project has a sustainable dimension, based on a 97% reduction in the buildings' carbon emissions, thanks in particular to a district heating network powered by waste-to-energy conversion – €113m

- ▶ **Colas Rail Ltd (COLAS)** : 5-year extension of the South Rail Systems Alliance (SRSA) contract for the renewal and upgrading of the rail network in the Western, Wales and East Anglia – €540m
- ▶ **Colas Rail Ltd (COLAS)** : extension of the Birmingham tramway – €192m

- ▶ **Eiffage Génie Civil (EIFFAGE)** : HS2, phase 2 – €264m (2 contracts)
- ▶ **NGE UK (NGE)** : construction of a fibre optic network in the Norfolk county, north-west London for Country Broadband (23 000 connections) – €15m
- ▶ **NGE UK (NGE)** : within Central Rail Systems Alliance, including Balfour Beatty, Network Rail and Atkins, maintenance of the rail network in central England for 10 years – €150m

- ▶ **Smulders (Eiffage Métal, EIFFAGE)** : Inch Cape offshore wind farm, electrical substation – €98m

AFRICA

Benin

- ▶ **Eiffage Génie Civil Marine (EIFFAGE)** : harbour basin extension at the Port de Cotonou – €119m

Cameroon

- ▶ **RAZEL-BEC** : rehabilitation of road infrastructure in the town of Maroua – €15m
- ▶ **RAZEL-BEC** : Guider photovoltaic power plant, platform, drainage and roads – €6m
- ▶ **RAZEL-BEC** : pavement works and road equipment on the RN3 – €9m
- ▶ **RAZEL-BEC** : rehabilitation of the Mbalmayo-Sangmélima road, road works – €6m

Cape Verde

- ▶ **RAZEL-BEC** : : installation of a reverse osmosis unit and a photovoltaic power plant on the island of Brava – €5m

Egypt

- ▶ **Colas Rail Egypt (COLAS)** : construction of the 1st phase of Line 4 of the Cairo Metro – €159m
- ▶ **TSO (NGE)** : construction of 330 km of double track for Egypt's first High-Speed Line, the "Green line" and 30 km of track in the depot – €80m

Ivory Coast

- ▶ **Franzetti CI (SADE)** : lot n°2 of the network extension project of water drinking supply in localities located on the Zambakro-Sinfra-Gagnoa axis on behalf of the Ministry of Hydraulics. This will involve supplying and installing 228.7 km of ductile iron pipes DN 400 and 600 and HDPE DN 63-315 – €11.25m
- ▶ **Franzetti CI (SADE)** : lot 3 for the extension of the drinking water network in localities located on the Zambakro-Sinfra-Gagnoa axis, on behalf of the Ministry of Hydraulics. This will involve supplying and installing 164.6 km of HDPE pipes DN 63 to DN 250 – €5.6m
- ▶ **Franzetti CI (SADE)** : reinforcement of the drinking water supply system from the Bandama River in Kimoukro, including the construction of eight hydraulic structures with 6 water towers of 100 to 5,000 m³ and 2 ground level reservoirs of 800 and 1,500 m³ – €10.6m
- ▶ **RAZEL-BEC** : development and reconstruction works on boulevards du Port and Vridi in the center of Abidjan, including the construction of two parking lots for heavy trucks – €55m
- ▶ **RAZEL-BEC** : development and rehabilitation works on Boulevard de la Paix in Abidjan and the Yopougon expressway (7.5 km) – €48m
- ▶ **Sogea-Satom (VINCI Construction)** : renovation works on a 93 km stretch of road between Dabou and Grand Lahou, part of the “Coastal Road” connecting the country’s two main port cities (Abidjan and San Pedro). The project covers renovation of 93 km of road, widening the road over a 10 km section ahead of Dabou and improving the drainage and wastewater network to reduce the risk of flooding. Renovating the road will enhance safety and reduce congestion between these two major cities, as San Pedro prepares to host the Africa Cup of Nations in 2023. The works will span 15 months – €97m

Madagascar

- ▶ **Colas Madagascar (COLAS)** : rehabilitation of the RN13 – €38m

Morocco

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : construction of the King of Bahrain's palace – €25m

- ▶ **Colas Rail Maroc (COLAS)** : construction of the low-voltage systems on T3 and T4 lines of the Casablanca tramway – €15m

- ▶ **CTHM (SADE)** : rehabilitation of the Yacoub El Mansour sewerage collector (South) in Rabat, using CCV T200 hulls over 1,900 m for REDAL – €2.2m
- ▶ **GTR (COLAS)** : construction of an express lane between Tiznit and Laâyoune – €19m
- ▶ **GTR (COLAS)** : roadworks and networks for the bus rapid transit network in Agadir – €14m
- ▶ **NGE Morocco (NGE)** : earthwork, sanitation and fence installation works for the Solar PV Mnes project in Benguerir – €2.8m
- ▶ **NGE Morocco (NGE)** : earthworks for the PMH-Platforming-Mzinda, 225 km south of Casablanca – €21m

- ▶ **NGE Morocco (NGE)** : construction of a wastewater treatment plant in Fquih Ben Salah with a capacity of 185,000 m³/day – €11m

Republic of the Congo

- ▮ **Eiffage Génie Civil (EIFFAGE)** : Pointe Noire industrial fishing port – €19m
- ▮ **RAZEL-BEC** : creation of a 50 ha platform on the banks of the Congo River in Brazzaville to accommodate buildings for tertiary purposes – €15m

Senegal

- ▮ **Eiffage Énergie Systèmes (EIFFAGE)** : Les Mamelles desalination plant – €77m

- ▮ **Eiffage Rail (EIFFAGE)** : Dakar Regional Express Train (TER) – €65m
- ▮ **Eiffage Sénégal (EIFFAGE)** : Dakar Regional Express Train (TER) – €43m
- ▮ **Eiffage Sénégal (EIFFAGE)** : section Thiaroye-Rufisque, installation of 2x3 tracks – €35m
- ▮ **Eiffage Sénégal (EIFFAGE)** : Boudier loop road – €30m
- ▮ **Eiffage Sénégal (EIFFAGE)** : Linguère airport – €22m
- ▮ **Eiffage Sénégal (EIFFAGE)** : Blaise-Diagne International Airport (AIBD), cargo terminal – €21m
- ▮ **Eiffage Sénégal (EIFFAGE)** : Kaolack airbase – €20m
- ▮ **Eiffage Sénégal (EIFFAGE)** : Sorocim cemetery – €19m
- ▮ **SADE Sénégal (SADE)** : lot n°2 of the project to supply and lay a drinking water pipeline between the Sadio and Mbacké catchment field, including the supply and laying of a DN 700 ductile iron pipe over 23,900 m, on behalf of Société Nationale des Eaux du Sénégal (SONES) – €8.9m

Tanzania

- ▮ **Razel Water Solutions (RAZEL-BEC) / VEOLIA** : work to improve the drinking water network in Dar Es Salam – €8m

Uganda

- ▮ **Sogea-Satom / VINCI Construction Grands Projets (VINCI Construction)** : design and build drinking water supply infrastructure in the Mbarara district of south-west of the country. The project involves the construction of a water intake on the Kagera River, a drinking water treatment plant with a capacity of 30,000 m³ per day, a booster station, and the laying of 62 km of pipes – €73m

NEAR & MIDDLE EAST

Saudi Arabia

- ▮ **Bouygues Bâtiment International (Bouygues Construction)** : construction of a theme park in Qiddiya, as part of the "Vision 2030" plan launched by the country, with 28 attractions (5 of which will be eligible to the Guinness World records). The park will be welcoming 5,000 visitors a day and create 2,000 local jobs – €559m

- ▮ **VWT Saudi (VEOLIA WATER TECHNOLOGIES)** : implementation of Actiflo® technology within a water treatment plant in Makkah, to treat a daily volume of 75,000 m³ of water to make it drinkable. Once treated, the water is distributed to more than 300,000 inhabitants of the region, thus representing the largest Actiflo® project in the region
- ▮ **VWT SAUDI OG (VEOLIA WATER TECHNOLOGIES)** : two contracts for the onshore oil facilities project of Saudi Aramco's Zuluf AH development program including the delivering of oily wastewater and drinking water treatment plants which should be operational at the beginning of 2024

Australia

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : Data Center Airtrunk SYD1, warm shell fitout of five data halls totalling 15 MW, including installation & commissioning of client supplied equipment – €38m
- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : Data Center Airtrunk SYD2, Shell & Core construction of four halls including external plant deck structure steel construction and associated site infrastructure services – €30m
- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : Edmondson Commuter Car Park, design and construction of a ground plus six suspended levels commuter car park providing 900 car spaces. The project includes feature facade, increased floor height on ground floor for future retail conversion, 2 lifts, metal deck roof with solar panels, electric vehicle charging and provisions for boom gates – €37m
- ▶ **Colas Contracting Pty (COLAS)** : pavement works in the south-west region of Western Australia – €11m
- ▶ **Seymour Whyte (VINCI Construction) / BMD** : landside civil and building works for the future Western Sydney International (Nancy-Bird Walton) Airport (WSI). Catering for up to 10 million passengers annually, it will be on track to open in 2026. The works include the integration of the new M12 motorway, which will link the airport to the Sydney motorway network, and the airport's two metro stations. The project will also include the construction of car spaces, electric vehicle charging stations, roads, bridges, utility network connections, operational buildings, and landscaping – €243m

- ▶ **Seymour Whyte (VINCI Construction)** : contract to build the central section of the new M12 motorway linking the future Western Sydney International (Nancy-Bird Walton) Airport to the motorway network in the Sydney area. The contract includes the construction of 7.5 km of 2x2 lanes, 11 bridges, cycle and pedestrian paths, networks, Intelligent Transport Systems (ITS) and green spaces – €255m

- ▶ **Seymour Whyte (VINCI Construction)** : Healesville-Koo Wee Rup Road upgrade in the East of Melbourne. The project involves a 5 km road duplication, two new bridges, and a new 5.5 km shared user path. The project's key focus is to minimise its environmental impact by using a 30% recycled asphalt product, reinforced concrete with recycled plastic used in place of steel reinforcing mesh and building of 23 fauna underpasses – €95m
- ▶ **VSL (Bouygues Construction)** : Sydney Metro West – €27m
- ▶ **VSL (Bouygues Construction)** : Bridgewater bridge in Tasmania – €23m
- ▶ **VSL (Bouygues Construction)** : Sydney Metro-Western Sydney Airport (SCAW) – €23m
- ▶ **VSL (Bouygues Construction)** : Northeast Link in Melbourne, primary package – €44m

China / Hong Kong / Macao

- ▶ **Bachy Soletanche Group Limited (VINCI Construction)** : foundations of a major property complex in Hong Kong's Central business district. The project, which includes the construction of diaphragm walls and bored piles, will be conducted in a highly complex environment, immediately next to an underground urban motorway and the metro – €80m

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : design and construction of a four-storey sports center and underground public parking lot with automated system on two levels in the San Po Kong district – €134m

- Bouygues Bâtiment International (Bouygues Construction)** : construction of a mail sorting platform at Hong Kong airport. The project involves the design and construction of a new two-storey facility with airside and landside access. The works comprise a two-storey building, ancillary buildings, technical installations, external works, landscaping and associated civil engineering works, on an estimated construction floor area of 11,300 m² – €73m
- Bouygues Bâtiment International (Bouygues Construction)** : construction of a five-storey fire station and ambulance depot at Tseung Kwan O, above which will rise 12 residential storeys comprising 132 housing units – €54m
- GPS (SADE)** : construction of a DN 1,000 water pipe from the Lujiazui water treatment plant to the Nanyang pipeline in Shanghai, on behalf of the Shanghai Pudong Veolia Water (SPVW), including the installation of corrugated pipes DN 1,000 (4,946 m), steel pipes DN 1,000 (359 m) and PE pipes DN 1,000 (418 m) – €3.2m
- GPS (SADE)** : 2nd lot of the Pipeline Inspection and Evaluation Service of the company in charge of water supply (connected), on behalf of Shanghai Chengtou Water Group Co. 414 km of pipes will be inspected, analysed and evaluated – €2.1m
- VSL (Bouygues Construction)** : Shenzhen Bay Bridge (Contract 1) – €27m

New Zealand

- HEB Construction (VINCI Construction)** / Fulton Hogan : design and construction of the Takitimu North Link south-east of Auckland. The works cover construction of a new 6.8 km 2x2 lane road, together with cyclist and pedestrian paths. This project includes construction of eight bridges, 29 culverts and eight stream diversions. Seven new wetlands will be created and endemic fauna will be protected – €391m

- HEB Construction (VINCI Construction)** / Fulton Hogan / Aurecon / Tonkin + Taylor : design and construction of the Penlink project in north Auckland. The contract is an “Alliance” type, creating an integrated team including the designer-constructor consortium and the client. The project will include the construction of a 7 km two-lane highway with a separate shared path for pedestrians and cyclists, as well as six bridges, including New Zealand’s first extradosed bridge. The design and construction chosen methodologies will allow a reduction of up to 20% of carbon emissions compared to a traditional design – €305m

- ▮ **HEB Construction (VINCI Construction)** : design and construction of 4.5 km of coastal shared paths around Wellington’s harbour, on the North Island. The contract, as part of the consortium formed with Downer NZ and Tonkin + Taylor, also includes the construction of 2.7 km of embankments and 800 m of seawalls to protect against storm events and sea level rise. On the South Island, in Christchurch, Central and Northern maintenance contracts covering 1,000 km of Council’s roads. These contracts include all maintenance activities for heavy maintenance (surfacing and pavement renewals), street cleaning and line marking. Both contracts are for an initial five-year period, each with the potential for a further 5-year term – €145m (for both contracts)

Thailand

- ▮ **Bouygues Bâtiment International (Bouygues Construction)** : construction of a condo building « Nue District R9 », in Bangkok – €28m

Turkmenistan

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : construction of the Ambassadors' reception Palace – €204m

NORTH AMERICA

Canada

- ▶ **Bouygues Energies et Services (Bouygues Construction)** : TD Tenant, improvement works – €33m
- ▶ **Miller Group (COLAS)** : civil engineering works on Highway 401, Ontario – €110m
- ▶ **NGE Canada (NGE)** : with Webuild and Hitachi, contract for the track work and the construction of the depot and the workshop of the "Ontario Line" metro in Toronto – €240m

- ▶ **Sintra (COLAS)** : earthworks as part of the widening project on Highway A85, in Quebec – €37m
- ▶ **Sintra (COLAS)** : repaving in La Romaine, Québec – €26m
- ▶ **Standard General Calgary (COLAS)** : widening and repaving a section of Highway 1A in Alberta – €11m
- ▶ **VINCI Construction Grands Projets, 50% (VINCI Construction) / Ferrovial, 50%** : contract for the design-build-finance of a major portion of the new Ontario Line, in Toronto. The project will form part of the future 15.6 km Ontario Line subway that will run from the Ontario Science Centre to

the Exhibition/Ontario Place. The civil engineering works – excluding rail equipment – include a 2 x 6 km twin-tube tunnel, together with seven new stations (6 of which are underground) – €4.4Bn

- ▶ **VINCI Construction Terrassement Grands Projets (VINCI Construction)** : contract to build the Springbank Off-Stream Reservoir located 15 km west of Calgary, in the province of Alberta. The project includes a regulation structure on the Elbow river, a 29 m high earthen dam stretching approximately 3.8 km, and working together with a water intake and a 4.3 km diversion channel. In total, earthwork for this project is estimated at around 5 million cubic metres. The contract also includes road development works and construction of engineering structures on adjacent roads. This project will help protect the inhabitants of Calgary and the surrounding areas by diverting and temporarily storing water from the Elbow River during peak volume events to avoid flooding – €263m

United States

- ▶ **Barrett (COLAS)** : refurbishment of a section of Interstate 75 in Dayton, Ohio – €47m
- ▶ **Barrett (COLAS)** : repaving a section of State Route 3014, Pennsylvania – €28m
- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : restoration of a historic 10-storey hotel at Pier 66, in Fort Lauderdale near Miami, and construction of several luxury residential buildings and commercial spaces. The aim of the project is to create an upscale neighborhood on a 90,000 m² plot of marina-side land – €160m

- ▶ **Bouygues Bâtiment International (Bouygues Construction)** : construction of a Citizen M hotel in Miami – €52m
- ▶ **Colaska (COLAS)** : refurbishing of Sterling Highway, Alaska – €98m
- ▶ **Colaska (COLAS)** : upgrading a section of Seward Highway, Alaska – €62m
- ▶ **Colaska (COLAS)** : reconstruction of the Dowling Road Seward Highway interchange in Anchorage, Alaska – €30m
- ▶ **Reeves (COLAS)** : demolition and reconstruction of a section of Highway 55, Arkansas – €35m
- ▶ **Smulders (Eiffage Métal, EIFFAGE)** : Wind 1 offshore wind farm – €32m
- ▶ **Smulders (Eiffage Métal, EIFFAGE)** : South Fork and Revolution offshore wind farms – €24m
- ▶ **Sully-Miller (COLAS)** : widening of a section of Route 20, in California – €21m
- ▶ **Sully-Miller (COLAS)** : extension and refurbishment of Taxiway D at Los Angeles International Airport, California – €78m

LATIN AMERICA

Brazil

- ▶ **Cobra IS (VINCI)** : conception, construction, financing and operation for 30 years of six 500 kV transmission lines to be installed on 1,020 km, four stretches of transmission lines in a distance of 63 km, one new substation and eight substation extensions – €670m

- ▮ **Cobra IS (VINCI)** : design & build for the installation of 980 km of transmission lines in Minas Gerais State, in the area of Espírito Santo, three new substations and five substation extensions – €386m

Colombia

- ▮ **Eiffage Génie Civil marine (EIFFAGE)** : Puerto Antioquia port infrastructure – €164m

Mexico

- ▮ **NGE Mexico, TSO (NGE)** : rail tracks rehabilitation for the line 12 of the Mexico city metro (9 km) – €16m

- ▮ **NGE Mexico, TSO (NGE)** : ballast cleaning campaigns for Kansas City Southern de México – €1.7m

- ▮ **NGE Mexico, TSO (NGE)** : track rail grinding operation on the Guadalajara metro – €0.6m

Panama

- ▮ **Colas Rail Panama (COLAS)** : construction of the L3 monorail for the Panama City Metro – €44m
